

Pozdravljeni učenci 8.c,

spet si dopisujemo.

Ocenjevanje znanja sem vam predstavila na 5.5. Izkoristite čas, pa vseeno še malo ponavljajte.

Cilj: skupine elementov v periodnem sistemu

Naloga:

V učni list, ki ste ga dobili na začetku leta (prazen periodni sistem) **vpiši simbole** vseh elementov, **dopiši lantanoide in aktinoide**, **pobarvaj** in **napiši legendo**. Uporablaj manjši periodni sistem.

Če še nisi, nalepi v zvezek.

A blank periodic table grid with 18 columns and 7 rows. The columns are numbered 1 through 18 at the top. The rows are numbered 1 through 7 on the left side. The grid is empty, intended for students to write element symbols and colors.A colorful periodic table with a legend. The legend is a box labeled 'legenda' with a blue arrow pointing to the legend in the image. The periodic table is color-coded by groups: Group 1 is pink, Group 2 is light blue, Groups 3-10 are yellow, Group 11 is light green, Group 12 is light blue, Group 13 is light green, Group 14 is light blue, Group 15 is light green, Group 16 is light blue, Group 17 is light green, and Group 18 is light blue. The legend box contains the text 'legenda' and a blue arrow pointing to the legend in the image.
